

Student Records Athletics and International Services

In SIS there is a feature that will prevent a student from dropping enrollments below a minimum-hours threshold (without a specific override).

Insuring full-time enrollment is ideal for groups such as student-athletes and international students who must maintain a minimum number of hours in order to remain compliant with their governing bodies (i.e., the NCAA and Homeland Security respectively).

This modification enables Athletics/International programs (as well as other programs) to set minimum hours on an individual student for a term via a batch job.

Data must be provided via the "Minimum Hour Input Spreadsheet" Excel file (MIN HOUR INPUT FILE.xls).
